

The application for Mark Twain Communications fiber internet service is available on the city website or at city hall. Please complete **all** areas of the application. The landlord permission form is required if you rent your location; if you own the service location you may disregard this form.

All plans include a modem/router at no additional charge. Speeds start at 150M down for \$55. All speed plans are unlimited, with no data caps or data throttling. There is currently no installation charge.

The service is billed in advance, so your first bill will have service charges from the date of installation to the end of the following month. It is not uncommon for the first bill to have almost two months service.

All applicants must sign the application; anyone that is not listed as an account holder or authorized user will not be able to access any information about the account. (Please note, we cannot accept electronic signatures; all forms must be physically signed.) When you have completed the application, please return it to us via email to csrs@marktwain.net (PDF files only), fax to 660-423-5496 or mail to:

PO Box 128
Hurdland, MO 63547

Once we receive the completed application, the order for service will be entered immediately. Installation may take several weeks up to a few months, as we are still building the fiber network in that area.

If you have any questions please call us at 660-423-6822.
